Looking for an energetic, committed, results-oriented and self-motivated individual to join our team in the position of

Agronomy Researcher (2-year contract)

(Work based in Chiang Mai)

PepsiCo is the Global Leader in Convenient Foods and Beverages by Winning with Purpose. "Winning with Purpose" reflects our ambition to win sustainably in the marketplace and embed purpose into all aspects of the business.

As one of the world's leading food and beverage companies, a steady, sustainable supply of crops is central to PepsiCo's business. Sustainable agricultural practices are critical to meeting the increasing demand for food as the global population grows. We are committed to improving our business continuously. In Thailand, we have ambitious growth and corporate sustainability plans.

Main Responsibilities:

- Facilitating and support consultants and partners in mapping challenges and opportunities to improve the resilience of PepsiCo's potato supply chain. Conducting literature reviews.
- Coordinate the collection and reporting of data for Agro and partnerships that feed into PepsiCo's sustainable business agenda:
- Coordinate the collection, analysis, and reporting of project data from all parties working within PepsiCo partnerships to inform PepsiCo and partner decision-makers.
- Provide regular (weekly/monthly) project progress reports and highlight critical decision points to Associate Manager
- Travelling to field sites to collect and record data and/or samples as appropriate to the specific objectives of the study

Qualifications:

- Bachelor's Degree or above in Agriculture, Sustainable, Cultivation, or related field.
- 2 years+ experience as researcher or researcher assistant in agribusiness, sustainability, agronomy, or operations environment.
- Proficiency in English.
- Experience working with smallholder farmers directly.
- Excellent project management skills.
- Willingness to travel regularly. Live or used to live in Chiang Mai is preferred.
- Has knowledge background of Agriculture, Sustainable, Cultivation (potato is preferred).

Looking for an energetic, committed, results-oriented and self-motivated individual to join our team in the position of

Project Manager, Sustainable Agriculture (2-year contract)

(Work based in Chiang Mai)

PepsiCo is the Global Leader in Convenient Foods and Beverages by Winning with Purpose. "Winning with Purpose" reflects our ambition to win sustainably in the marketplace and embed purpose into all aspects of the business.

As one of the world's leading food and beverage companies, a steady, sustainable supply of crops is central to PepsiCo's business. Sustainable agricultural practices are critical to meeting the increasing demand for food as the global population grows. We are committed to improving our business continuously. In Thailand, we have ambitious growth and corporate sustainability plans.

Main Responsibilities:

- Lead partnership development for a whole farm program alongside GIZ, including stakeholders such as the Dept. Of Ag and Extension Services of the Thai Government, Members of the Sustainable Rice Platform and Raks Thai Foundation.
- Implement PepsiCo's sustainable sourcing strategy (e.g. CIAT, others).
- Coordinate project implementation efforts to ensure all parties deliver against expectations.
- Developing and executing the work plan for the program in partnership with other stakeholders.
- Supporting and coordinating consultants and partners in mapping challenges and opportunities to improve the resilience of the Potato supply chain.
- Coordinate the collection, analysis, and reporting of project data from all parties working within PepsiCo partnerships to inform PepsiCo and partner decision-makers.
- Provide regular (weekly/monthly) project progress reports and highlight critical decision points to Supply Chain Agro Manager and GSO.

Qualifications:

- Advanced Degree or Bachelor's Degree in Agronomy, Economics, or a related field in agriculture or social sciences.
- At least 5 years of prior work experience in the management and implementation of development projects or work directly with private sector agricultural actors.
- Experience in Thailand's agricultural sector is required.
- Excellent interpersonal and communication skills.
- Advanced professional fluency in English and Thai.
